

## **Amrita V. Singh authored an article in the Toronto Law Journal titled "Federal Court Admits Foreign File Wrapper in Canadian Claim Construction"**

February 6, 2020

Amrita V. Singh authored an article titled "Federal Court Admits Foreign File Wrapper in Canadian Claim Construction", published in the *Toronto Law Journal*.

To get a Canadian patent for an invention, a patentee must "prosecute" a patent application before the Canadian Patent Office. In so doing, a prosecution file — also known as a file wrapper — is generated, which comprises communications between the patentee's patent agent representative and the Office.
