Ranking excerpt:

“There is no question that Bereskin & Parr is one of Canada’s best IP boutiques. This is evidenced by the fact that it has occupied top-tier rankings in every edition of the *IAM Patent 1000* since it was first published in 2012 and consistently has multiple individuals recommended in all areas of patent practice. Lighting up the country’s litigation scene are **Scott MacKendrick**, **Robert MacFarlane** and **Donald Cameron**, all seasoned advocates with benchmark wins to their name. Worthy of special mention this year is *IAM Patent 1000* debutant **Adam Bobker**, “a next-generation litigator with a fine tactical appreciation who produces top-grade work”. Making Bereskin & Parr a go to for high-quality prosecution are **Micheline Gravelle**, who leads the life sciences and cannabis practices; **Patricia Folkins**, who takes charge of the chemical group; **Philip Mendes da Costa**, who helms the mechanical and industrial process practice; electrical and computer chief **Bhupinder Randhawa**; and designs chair **Robert Storey**. **Victor Krichker** and **Noel Courage** have patent licensing on lock; both regularly publish and speak on the subject – Krichker focuses on high-tech deals, while Courage concentrates on the life sciences.”
