

Chantalle Briggs

J.D., Ph.D. (Anatomy, Neurobio & Neuroscience), B.Sc.(Biology)

Associate | Toronto
289.326.4763
cbriggs@bereskinparr.com

Experience

Chantalle is an associate with Bereskin & Parr LLP. Her practice focuses on life sciences and medical device matters, including patents and related regulatory issues under the *Food and Drugs Act*.

Chantalle's Ph.D. research was directed to the anatomical and electrophysiological regulation of sleep/wake behaviour, which she then pursued as a research associate in both Canada and Japan. She has authored and co-authored several publications on neuroscience and neuropharmacology, most recently [Sleep deprivation-induced pre- and postsynaptic modulation of orexin neurons](#)

She has been involved in several science outreach initiatives such as Let's Talk Science and the Canadian Medical Hall of Fame Discovery Days, and science policy organizations including a term as national program coordinator for Evidence for Democracy. In September 2022, Chantalle joined the Executive of the Canadian Bar Association's Health Law Section as a Member-at-Large.

Chantalle is fluent in English and French.
