Experience

David Morrison is an associate at Bereskin & Parr LLP with a practice focused primarily on patent prosecution. David works with clients to secure patent protection for a broad range of technologies, particularly mechanical, chemical, computer and clean technologies with an emphasis on automotive, computer software, hardware and medical devices. David also provides strategic advice to clients on filing strategies, patent validity, and patent infringement issues.

David holds a Bachelor of Engineering in Chemical Engineering and Bioengineering, a Master of Applied Sciences in Biomedical Engineering from McMaster University and a Juris Doctorate from Western University. David was called to the Ontario Bar in 2013. Prior to law school, David worked as a Research Fellow at a Harvard-MIT combined research institute and as a Business Development Analyst at the McMaster Industry Liaison Office.
