## Experience

Thomas Oakes is the Manager, Information Technology at Bereskin & Parr LLP with more than 25 years of management experience in the legal industry. Thomas is responsible for the operation and strategic initiatives of the firm's technology, including infrastructure, applications, telephony and cloud-based solutions.

With extensive experience in legal technology, Thomas has managed the technology services and initiatives of small to large-size firms. His technical expertise and strategic planning abilities support the business initiatives of the firm.

Prior to joining Bereskin & Parr, Thomas worked at several prominent Toronto-based law firms.
